**Re: 2019 Texas Master Gardener Association (TMGA) State Conference April 25-27, Victoria, TX
Hosted by Victoria County Master Gardener Association**

The Victoria County Master Gardener Association as part of Texas A&M AgriLife Extension, are proud to announce they have been selected to host the 2019 Texas Master Gardener Association State Conference, set for April 25-27, 2019, at the Victoria Community Center.

Up to 500 gardeners from throughout Texas are expected to attend, making this event the largest of its kind to ever be held in Victoria. The Victoria County Master Gardener Association, a non-profit organization, is contacting businesses, corporations, foundations and agencies to sponsor this educational event.

Four levels of sponsorship are available with varying complementary benefits that are listed on the [Sponsor Levels document](#). With sponsorship, your organization will receive positive publicity prior to and during this conference.

In keeping with TMGA's dedication to learning and sharing gardening knowledge with Texans of all ages, this conference will feature nationally recognized horticulture speakers and authors, educational tours in Victoria and neighboring counties, workshops and training sessions. Additionally, state and local vendors will be on hand for attendees to shop and browse.

Since this will be the first visit to Victoria for many of our guests, it will be VCMGA's honor to welcome them with our area's bountiful hospitality. Therefore, we sincerely hope you will support our endeavor by becoming a sponsor.

When you are ready to select a sponsorship level, if you require additional information, please contact Brynn Lee, conference chair, (512) 709-1080, cbrynnlee@yahoo.com, or Linda Hartman, co-chair, (361) 652-7657, llhart@suddenlink.com.

Sincerely,

Brynn Lee/Linda Hartman
